Portfolio: hvcy.github.io/heavend-portfolio/

Healthcare Virtual Assistant and Intake Coordinator with experience supporting U.S. home health and hospice operations. Skilled in insurance verification, prior authorization, patient intake, documentation review, case tracking, and coordination with payers, medical groups, and provider offices.

Detail-oriented and reliable in handling time-sensitive healthcare requests, maintaining accurate patient records, following up on pending cases, and identifying missing or incorrect information. Experienced in auditing team work for accuracy and escalating discrepancies to ensure issues are addressed promptly.

Able to contribute to healthcare teams by keeping workflows organized, reducing processing delays, maintaining accurate documentation, and providing consistent follow-up. Quick to learn new systems and comfortable working across multiple healthcare portals and platforms in fast-paced remote environments.

- Insurance Eligibility & Benefits Verification
- Prior Authorization Coordination
- Referral & Intake Processing
- Coverage Review & Documentation Validation
- Healthcare Workflow Management
- Payer & Provider Communication
- Medical Records & Documentation Review
- Authorization Tracking & Follow-Up
- Regulatory Timeline Awareness
- Healthcare Administrative Operations

PROFESSIONAL EXPERIENCE

Intake Coordinator – Home Health & Hospice (NESI - NEWIND CORP)

December 2024 August 31, 2026

- Coordinated with insurance payers, medical groups, and provider offices to verify eligibility, authorization requirements, and case information.
- Submitted, tracked, and followed up on prior authorizations, monitored approval status, and maintained timely case updates.
- Reviewed authorization requests and patient documentation for completeness, accuracy, and required clinical or administrative information.
- Maintained accurate patient records across multiple healthcare systems and portals while ensuring proper case tracking from intake to completion.
- Audited team members' work to verify the accuracy and completeness of information provided to clients and compliance with established procedures.
- Identified incorrect or incomplete information provided by Customer Service Representatives (CSRs) and escalated discrepancies to the appropriate team for correction and resolution.

- Strong understanding of payer-provider communication processes
- Familiar with healthcare documentation workflows and authorization tracking procedures

CERTIFICATION

- Inovalon Platform Training Certification – training on Inovalon healthcare portal including workflow navigation, data entry processes, and system utilization for healthcare insurances.

Customer Service Representative – Airline Operations Support (Frontier Airlines Account)

2019-2020

- Provided customer support for airline reservations including flight bookings, cancellations, refunds, and itinerary modifications in a high-volume environment.
- Assisted passengers with real-time flight information, policies, and travel-related inquiries through structured communication channels.
- Processed booking adjustments and refund requests while ensuring accuracy and compliance with airline procedures and guidelines.
- Utilized airline systems and internal tools to manage customer requests efficiently under time-sensitive conditions.
- Demonstrated strong communication, multitasking, and problem-solving skills while handling high-volume customer interactions.

Customer Service Representative – Auto Insurance Support (Non-Voice Account)

2019

- Processed customer account updates and insurance-related data entry tasks within structured system workflows in a non-voice support environment.
- Navigated internal tools and platforms to complete assigned tasks, ensuring accuracy in customer records and system updates.
- Supported production targets and quotas by efficiently completing assigned workload within required timeframes.
- Maintained attention to detail when handling customer information and workflow-based documentation tasks.
- Operated within a structured BPO environment requiring adherence to process guidelines, accuracy standards, and performance metrics.
